

# ENVIRONMENTAL INNOVATION CHALLENGE

## We've got funding to help you build your prototype.

Student teams are invited to apply for funding to build prototypes for the [Environmental Innovation Challenge](#). Application period: mid-November to December 14

### About the Environmental Innovation Challenge

If you have a passion for sustainability and the desire to make an impact, the Alaska Airlines Environmental Innovation Challenge is for you. This year's competition is April 2, 2015.

### What Projects are Eligible?

Any product, process or service that reduces waste, minimizes energy consumption, and contributes to a healthier planet. Re-use, recycling, water usage, energy generation, green consumer products, and nanotechnology - all are ripe for innovation.

### Upcoming Environmental Innovation Challenge Dates and Deadlines:

October 30	<b>Team Formation Mixer</b> Thursday, October 30, 5:30—7:00pm Electrical Engineering Building (EEB) Room 303	Nov- Dec	<b>Application Period for Prototype Funding</b> Mid-November—December 14
November 19	<b>Past Participants Panel &amp; Team Formation Mixer</b> Wednesday, November 19, 5:30—7:30pm HUB Room 145	Jan- Feb	<b>Early Team Registration</b> January 24-February 2
