From the editor's desk

The quarter is almost over and as soon as you finish up finals, it's important to take some time to reflect on your goals. Did you get a chance to accomplish everything you wanted to do this year? Take some time and think critically about how you can improve yourself and the activities you're involved with. Reach out to others for feedback and keep in mind that improving and growing is a lifelong process; it's a marathon, not a sprint!
