

MAY 8TH, 3:30-5PM

CSE2 371

Have you ever heard someone say a **problematic statement** to you or your classmates but don't know how to respond to it? Do you want to become more aware of your own **unconscious bias**?

You are invited to participate in the Allen School's Inclusive Community Workshop led by CSE advisors **Elise and Raven**. The workshop reviews basic concepts related to inclusion, diversity, and bias; and helps you feel empowered to make your own interactions more inclusive with new tools and strategies.

(It is aimed towards students who are interested in taking a **leadership role** in running the workshop in the future)
